

Mayor  
**DAVID MILLER**

April 9, 2009

General Motors of Canada Limited – Windsor Transmission Plant  
1550 Kildare Road  
Windsor, Ontario  
N8M 5W1

Dear Lewis Campbell,

In March, my office began using the Chevrolet Malibu Hybrid purchased by Toronto Fleet Services as my official vehicle. I have been very pleased with the performance of this new sedan. The Malibu Hybrid has proven to be reliable, fuel efficient, nimble, and spacious.

Of course, much of the credit for the Malibu Hybrid's performance must go to the quality of parts supplied by the Windsor Transmission Plant. In this time of economic crisis and uncertainty, it is important for our leaders to demonstrate confidence in the Canadian auto and auto parts industry. It is for this reason that my office chose the Malibu Hybrid as my official vehicle, and I would like to thank you for your contribution in supplying quality Canadian-made parts to General Motors.

The Canadian auto industry earns its well-deserved reputation for excellence thanks to the integral components your company produces, and your work shows through the performance of this top quality, cutting-edge vehicle.

I feel it is important that you know how pleased I am with the work you do and how important it is for public institutions like the City of Toronto to support our domestic suppliers. Thank you.

Yours Truly,

A handwritten signature in black ink that reads "David Miller". The signature is written in a cursive, flowing style.

Mayor David Miller  
City of Toronto
