

## Environmental Policy

As a responsible corporate citizen, General Motors of Canada is dedicated to protecting human health, natural resources and the local and global environment, in accordance with the Environmental Principles of General Motors Company. This dedication reaches further than compliance with the law to encompass the integration of sound environmental practices into our business decisions. This policy is based on the integration of sound environmental practices into our business decisions. This policy is based on the integration of risk-based, cost effective management practices into site activities with the aim of continually improving environmental performance and conditions, and promoting sustainable development.

GM Canada is committed to assess the environmental impacts of its activities, products or services as basis for its environmental management programs and to reduce wherever practicable these impacts through the establishment of appropriate objectives and targets.

In particular, GM Canada will strive to achieve the following objectives through continued execution of our Environmental Management System:

1. Comply with all applicable environmental laws and regulations, and other requirements.
2. Assign management responsibility for the environment in all areas of our facilities and ensure that all employees are aware of their individual responsibilities for acting in accordance with this policy, while providing effective information and training to encourage individuals to contribute effectively.
3. Practice and promote effective prevention of pollution in accordance with a hierarchy giving top priority to waste prevention at the source, elimination or reduction of wasteful practices, and recycling.
4. Maintain communications with our local community, legislators, regulators and other organizations with an interest in our environmental performance.

In accordance with our Environment Management System requirements, GM Canada will regularly review environmental performance and our facilities' objectives and targets to assess progress toward continual improvement.

This policy statement will be periodically reviewed to ensure its continuing suitability, be available to the public and communicated to all persons working for, or on behalf of, GM Canada.
